The Narrative of Widow
Community Globally**

ABOUT THE FOUNDER

Nine years ago, I was happily married but later lost my husband due to a tragedy that struck in form of a devastating illness leaving me with three amazing children.

I suffered loneliness and depression and this prompted me to search for a way out. I was seriously seeking companionship from women who are suffering from this same dilemma I have found myself.

I searched but I could not find a single Widow Organization in Nigeria. To the glory of God, I finally found an international based organization which

I joined and it helped me regained my strength to walk through this lonely road.

My experiences in participating in the International Widow Groups opened my mind up to the understanding that healing is possible even though it is mostly going to be a gradual process.

Having gone through this experience and still going through it but with a renewed strength and a new but positive perspective. God has helped me to see a need of reaching out to other young widows in Nigeria like myself who is also going through the same crisis I was going through then to

bring the message of hope and healing to them.

Today, here are few testimonies from our Widow Community Globally – Christian Widows and Widowers Empowerment, Nigeria (CWWE) that will amaze you.

These testimonies will refresh you, strengthen you and bring both hope and healing to you.

Happy Reading!

TESTIMONY OF 50 WIDOWS IN CWWE NIGERIA

OUR TESTIMONY

Anyone Elita

Sure, it has been of great help. The fact that one can meet and interact with different individuals bound by similar life experiences in same group who can share of their lives and journey to widowhood is encouraging... Some of us who are still quite young in age and even the journey of widowhood were at the initial stage very desperate to know if at all there are other young people

with similar bitter experiences and being in a group like this has actually given answers to such questions and other concerns on our minds...

You are definitely doing a great job here ma'am, using your circumstance as an opportunity and avenue to reach out to so many others who have been made to walk this dreadful path of loss and I would like to say thank you ma'am for choosing this pathway...I may not have been making posts personally but I see all the activities and I make some comments from time to time or punch like buttons but I must let you know that I have learnt a lot and I know a lot of others too have.. Please keep up the great job and may The Lord continue to empower you and

every one of us that we may continually be a source of strength, encouragement and comfort to others who will be made to walk this dreadful path of loss after us and sadly, every day, somewhere, somehow someone is forced into this journey.... Mmmmmmmmm may The Lord continue to see us all through... Amen!!

Well done ma'am... and one love to every member of this great group...

Yes. Indeed, this is a wonderful group that increased me in spirit and let me know better that there is hope when there is still life.

Oguguo Rita Ukamaka Uzoma

Yes ooooo. Very, very much spiritually in a very big way. Emotional healing yes. I could remember when I was totally broke. I was in a very big debt. The man was on my neck even trying to lure me to bed. I stayed for weeks without boasting for 500 each day. I cried and was so depressed to the extent of locking myself up in my room each time my kids went to school. I became a shadow of myself. My son fell sick no money to get medicine for him. I cried to family and friends no one was able to give me even #100. I chat with mummy Beatrice up for the first time. She sent me 5000 I was over blessed that day. I can never forget you ma.

Even, without you knowing me in person. May God bless you richly.
